**Subject:** Microsoft Settlement

To Whom It May Concern,

I am writing to support settlement made between DoJ and Microsoft. I learnt that the settlement is now in the Tunney Act review period. I am therefore writing to state that making the settlement stayed "as-is" is in the public interest.

The whole law-suit between DoJ and Microsoft might have started with good intention. Unfortunately, time has changed, the industry has changed, companies' attitude have either changed or revealed its true self. In particular, the private suit filed against Microsoft in the last few days is simply a demonstration of corporate greed rather than the interest of the public. Please do not be distracted in any way by this stupid suit which is nothing but another demonstration of the abuse of the American legal system, tax-payers' money, and time & resource of government officials that can be better spent on the more pressing issues like terrorism.

Once again, I believe that the settlement made will meet the public interest. The time of our society should be spent on other matters that are more meaningful.

Thank you for the attention to this communications.

Yours truly,
